A World Bridge Projects Summary: February 8, 2017

Initial project launch workshops were conducted onsite in Yupiit School District:

December 12 – Tuluksak School

December 13, 2016 – Akiak School

Dec. 14 – Akiachak School

Dec. 15 – YSD School Board Meeting presentation

Video Conference Workshop Meetings

Video conferences were conducted to define and develop project/problem definitions and assign preliminary research activities. All efforts were focused on development of sustainable community solutions.

Jan. 13 – Akiak WB Student Team

Jan 16 – Tuluksak WB Admin team

Jan 17 – Tuluksak WB Student Team

Jan. 24 – Akiachak WB Student Team

At all three sites, we reviewed the three main projects for NASA CitySmart – Renewable Energy, Water Quality and Agricultural Development.

Current Progress: After reviewing the main project goals, students were asked to perform research on these tasks, to present information to NASA specialists. Students and teachers will work in groups to research:

- Sustainable energy solutions, especially wind energy. Bethel installed one large wind turbine, and three smaller turbines at a school, to test the return on investment of energy from wind. Student teams will study Bethel's data and develop a series of tasks to determine what type/size of turbine we could potentially install, and where the optimal locations would be. Students need to develop an energy budget – determine how much energy is generated and used, first in the school, then in the community.
- Water Quality testing – a student team will be assigned to work with teachers to open the FOSS experiment kits and inventory the equipment available that we might be able to use for the projects. Students will also identify the University of Alaska – Fairbanks water quality testing laboratory, so that we may also have a highly accurate test done on our water supply.
- Agricultural development – high desire to grow fresh, organic food all year. Students will research information on types of greenhouses, and the preparations necessary for lighting, heating and soil, to grow food all year in YSD.
- Students will learn how to use Microsoft Office applications, so they can document their research in text, presentations and spreadsheets.

The **Collaborative Basecamp Portals** are now available, where students and teachers will manage their project work. Workshops will be conducted onsite to train on utilization of these portals.

Unmanned Aircraft Systems – Scientific Applications (UAS-SA) mapping for the road/path transportation system. Kodiak will help supply some technology for this project.

UAS (drone) Applications for YSD:

- High-definition aerial mapping for the road system
- River mapping for erosion studies
- River mapping for ice road establishment?
- Mapping for land trails to neighboring villages?
- Thermal imaging for inspection and maintenance of above-ground plumbing, especially for Tuluksak.

Initial Tasks:

- Research Topics listed above
- Inspect and inventory science equipment (FOSS)
 - Identify any water flow equipment, for determining river erosion properties, especially to help Akiak
- Prepare registrations for Basecamp portal
- Train students on research process utilizing World Bridge content
- Update training on Microsoft Office apps
- Review computer science programming initiative, identify students previously participating and the languages studied. Develop new program leading to NASA World Wind application, including Javascript, HTML5 and CSS.
- Integrate World Bridge projects into elementary school

Re: January 31, 2017 Board Report

The FY 2017 January Board Report contains the following:

- District Revenue Budget versus Actual
- Expenditure Summary by Function and Location
- District Expenditure Budget versus Actual
- Board Budget versus Actual

Cash balance at 12/31/16 is \$3,751,469

Accounts receivable from the State for 6/30/16 grants around \$19,571.

Staffing and Training – The new accounting system is up and running. We are also running the old software side by side to insure that the transition goes smoothly.

FY 2016 Audit – We anticipate that it will be finalized by the CPA firm in the next week.

We are working on the 2018 budget.

To Whom It May Concern:

I'm writing this letter to resign from my position as an Elementary Teacher at Tuluksak School for the 2017-2018 school year.

I feel that my professional needs can be better met in a different environment. Thank you for the opportunity you have provided me with during my first year of teaching.

Sincerely,

Brittany Schmitz

To whom it may concern,

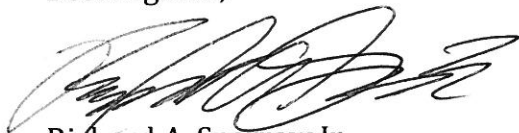

I would like to inform you of my resignation from my teaching position at the Tuluksak School for the 2017-2018 school year.

Thank you very much for the opportunities that you have afforded me in the past two years. I feel that it is time to move on towards a placement and living situation that better meets my needs, goals, and values.

I have chosen to inform you of this decision early as to afford you the maximum amount of time and opportunities to fill my position for the next school year.

I have enjoyed teaching at the school. It has been both a rewarding and memorable experience. With great dismay, I must give my resignation letter with much respect. Hopefully, I will be replaced by someone with the same passion for knowledge and teaching that I have.

Best regards,

This Contract is between the Yupit School District (YSD) hereafter referred to as YSD and the Tuluksak Native Community, hereafter referred to as TNC.

WHEREAS: the YSD desires to receive potable water which meets State and Federal drinking water standards; and

WHEREAS: the TNC possesses the capability of providing a limited amount of water meeting these standards.

THEREFORE, the district and TNC agree to the following

ARTICLE 1. SERVICES

A. TNC agrees to:

1. Provide up to 3,000 gallons of potable water meeting State and Federal Standards for any given 24-hour period for which the District requests water service in Tuluksak.
2. Supply pressured water greater than 30 PSI to the District Facilities including teacher housing units via a dedicated water service line from the TNC owned water treatment plant to the District facilities
3. Circulate the dedicated District water service line during periods when the dedicated water service line may freeze.
4. Be responsible for maintenance of TNC water service lines up to District property lines.
5. Provide YSD monthly usage reports

B. The District agrees to:

1. Pay TNC a total of \$75,000 for 3000 gallons of potable water supplied to the District service line beginning at the Tuluksak schools and teacher housing property line
2. Remit payments in quarterly installments of \$18,750.00 each quarterly paid out on the first working day of each quarter
3. Pay .12 cents a gallon for all water used above 3,000 gallons per 24 hour period.

ARTICLE 2: PERIOD OF PERFORMANCE

This Contract commences on July 1, 2016 and ends on June 30, 2017; This Contract can be extended in 1-year increments if both parties agree.

ARTICLE 3: TERMINATION

This Contract may be terminated at anytime by either party, provided a 60-day written notice is submitted.

ARTICLE 4: Disruption of Services

Reliable water and sewer service is essential to school operations and the needs to residents in YSD employee housing. A co-operative working relationship between TNC and YSD to ensure continuation of water services is desired and encouraged. YSD shall have no liability for assistance provided to TNC.

ARTICLE 5: ADDITIONAL CONTRACT PROVISIONS

- A. This Contract is subject to all applicable laws of the State of Alaska.
- B. TNC agrees to protect, defend, indemnify and save harmless the District from and against any and all claims (no matter how meritless), demands and causes of action of any nature whatsoever, and any expenses incident to defense of any by the District therefore, for injury or death of persons or loss or damage to property arising out of the performance of this agreement by TNC.
- C. The District agrees to protect, defend, indemnify and save harmless TNC from and against any and all claims (no matter how meritless), demands and causes of action of any nature whatsoever, and any expenses incident to defense of any by TNC therefore, for injury or death of persons or loss or damage to property arising out of the performance of this agreement by YSD.
- D. Any dispute arising under this Contract which is not disposed of by agreement between the parties shall be subject to arbitration under the following procedures:
 1. Either party shall advise the other party that its arbitration of a dispute arising under the Contract.
 2. Within seven (7) days of receipt of the arbitration request, each party shall select one arbitrator panel member.
